EPCRA - TRI Form R/A (submit at cdx.epa.gov)	July 1

(1) Facility requirements should be verified to confirm due dates.

Additional Environmental Requirements

Stormwater: Industrial General Permits listed below are issued based upon the watershed that the facility is located in:

- MIS110000 (expires April 1, 2026) - discharge stormwaters to cycle-year 1 watershed;
- MIS210000 (expires April 1, 2026) - discharge stormwaters to cycle-year 2 watershed;
- MIS310000 (expires April 1, 2023; new permit expires April 1, 2028) – discharge stormwaters to cycle-year 3 watershed;
- MIS410000 (expires April 1, 2023; new permit expires April 1, 2028) – discharge stormwaters to cycle-year 4;
- MIS510000 (expires April 1, 2025) – discharge stormwaters to cycle-year 5.

Hazardous Waste: LQGs consolidating VSQG waste must also report consolidation activities.

Wastewater (NPDES/SDS): Discharge reports are required to be submitted at regular intervals, per permit requirements.

SPCC Plan: SPCC Plans must be updated every five years or whenever there is a change in oil storage or spill potential.

Air Permits/Emission Inventories: Some permits may require more frequent reporting. Certain deviations have immediate reporting obligations.
